Early Childhood Music Classes expose children, ages birth–7 years, to a rich variety of musical sounds and playful activities. This early exposure lays the foundation for lifelong music appreciation and study.

Early Childhood Music Education classes are based on the research of Edwin Gordon and follow the curriculum developed by Dr. Cynthia Crump Taggart, Professor and Chair of Music Education at MSU and Director of the Early Childhood Music Program at CMS. Class activities include singing and chanting, moving to music, playing assorted percussion instruments, and pattern instruction. The goal of the curriculum is to increase children's music aptitude (potential to achieve in music) through engaging and entertaining musical activities, which will lay a foundation for lifelong music.
