Federal Design-Build Symposium

Planning for Washington DC

DBIA Conference Department,

meetings@dbia.org

Inspire your project. Inspire your future.

Design-build has played a critical role in the federal sector's pandemic response and will be vital to our nation's post-COVID-19 recovery. There's a possibility for federal infrastructure investment to help spur that recovery. That's why, now more than ever, it's important that design-build teams in the federal sector prepare for what lies ahead. We hope to hold our August 2021 Federal Design-Build Symposium in-person; however, your safety is our number one concern. We're watching events closely and will keep you posted on the final format decision (and thus the date) but the event will happen – so plan on joining us in August for this year's Federal Design-Build Symposium.

Design-Build for Water / Wastewater Conference

Planning for Denver, CO

DBIA Conference Department,

meetings@dbia.org

Planning for Denver (and Keeping Our Fingers Crossed)

We're so eager to see you in-person and are planning to do just that. As always, the safety of our community is our top priority but we're remaining optimistic and starting our planning to see you in-person in Denver come November. Save the Date!

DBIA's Annual Conference & Expo attracts thousands of attendees and hundreds of exhibitors each year. This event provides unique opportunities for you to network with peers – both Owners and practitioners – allowing you to make connections that power career and business opportunities, expand your professional reach, and create long-lasting impact.
