This one day seminar is comprised of presentations provided by a group of nationally recognized experts / consultants in the area of odor control and other air emissions from wastewater and water systems. It's truly a unique opportunity to earn PDH/CEU credits and learn the latest on odor/corrosion control and greenhouse gas related topics on a practical level from both a national and Florida perspective. A full range of subjects centered around municipal odor complaint and related infrastructure corrosion mitigation will be covered and will include question and answer opportunities and group problem solving during the day. A catered lunch will be provided and is included in the registration fee.
