Wastewater Basic Course NW Section (Fremont WWTP)

Fremont WWTP
323 South Front Street
Fremont,, OH 43420
05:00 PM - 08:00 PM EST
OWEA Office, 614-488-5800
admin@ohiowea.org

This class is meant to aid entry level operators in obtaining their Wastewater License and in becoming great operators. The course is based off of the WEF Wastewater Fundamentals I & II. Additional materials have been created by an experienced group of wastewater professionals. There will be required reading outside of the weekly in person class.

Experience credit through OEPA is pending.

There are a minimum of five students required for this course to occur. If this minimum isn't meet this course will be cancelled and registered students will have the option o transfer to another course or receive a refund.

Each course has a maximum of 20 students.

Students will receive all course materials, including the WEF Fundamentals Book I and II on the first day of class.

Due to the high cost of materials and limited registration spots, a 50% refund is available if the student drops out no later than Week 3 of the course. No refunds will be given after this date, for any reason.

Registering and attending this course DOES NOT guarantee the participant will pass the licensure exam.

Water Industry Career Panel

05:30 PM - 07:00 PM EST

On behalf of the Ohio American Water Works Association Young Professionals Committee, we would like to extend an invitation to attend an upcoming career panel to learn more about the water industry.

What: Water Industry Career Panel

For Who: All students or interested young professionals

When: November 12th from 5:30-7:00 PM

Where: Virtual. Zoom link provided after registration

Details:

The virtual career panel is featuring 3 professionals from various sectors of the water industry. Panelists will share about their day-to-day work, how they got their start in the water industry, and why they are passionate about the water field! An overview of the water industry will also be provided to highlight different opportunities and organizations. Attendees can ask questions during the panel and speak directly with panelists during breakout room Q&A sessions.

Panelist Speakers:

We will hear from: Alec Grimm, Ph.D., Water Resource Engineer; Jenifer Howell, Chemist, Greater Cincinnati Water Works; and Steve A. Nocera, P.E. Engineer III, Division of Water at the City of Columbus.

Register:

The flyer to this event is attached, which contains a registration link. Please register to save your spot!

The registration link can also be accessed here: [Eventbrite Registration](#)

Diversity in Water Speaker Series: Simoni Triantafyllidou

05:30 PM - 06:30 PM EST

Our next Diversity in Water event is November 14th from 5:30pm – 6:30pm with Simoni Triantafyllidou, Environmental Engineer with the US EPA's Office of Research and Development. Please spread the word!

The event will be held virtually via Zoom; to receive the meeting link, please RSVP here: <https://www.eventbrite.com/e/diversity-in-water-simoni-triantafyllidou-november-2024-registration-694411923757>

The Diversity in Water Speaker Series invites leaders in Ohio's water industry from diverse backgrounds to discuss their careers, lend us their life lessons, and help lead the discussion on championing diversity within the water industry and in our day-to-day lives.

Diversity in Water Speaker Series: Simoni Triantafyllidou

Date / Time: Thursday, November 14, 2024 from 5:30 – 6:30PM, ET

Simoni is an environmental engineer with USEPA's Office of Research and Development in Cincinnati, Ohio. She conducts research and provides technical support revolving around aquatic chemistry, drinking water quality & treatment, corrosion science, inorganic contaminants and sustainable drinking water infrastructure (premise plumbing & distribution systems). Simoni earned her Ph.D. and M.S. in environmental engineering at Virginia Tech, after completing her undergraduate engineering degree at the Technical University of Crete in Greece. Simoni currently serves as an AWWA Water Quality & Technology Division Trustee, after previously chairing the AWWA Premise Plumbing Committee.

We have a YouTube channel where you can see any talks you missed!
