Are You Compliant

We are 6 months into AB 1020 and AB 532 - Hear from veterans about what worked and what still needs to be addressed.

Managing Remote Workers

With the increased use of advanced technology, there has been a rise in the number of employees who work from home. But, out of sight shouldn't mean out of mind!

Remote work can also be a perk to attract top-quality candidates - especially important in this tight labor market. How do you decide if remote work is good for your company or for a particular department or employee? Join us for this session where we will discuss the common concerns and best practices when supervising remote workers.

Legislative Update

AAHAM's own Richard Lovich will provide an up-to-the-minute review of current and pending legislative changes that you need to understand.
