AVMA Veterinary Leadership Conference

07:30 AM - 05:00 PM CST

Visionary leadership for veterinary professionals

The Veterinary Leadership Conference (VLC) is the veterinary profession's premier conference for leadership development. Through a unique mix of CE sessions, AVMA governance meetings, and networking, attendees will expand and hone leadership skills while connecting with a diverse network of colleagues from all walks of the veterinary profession.

The 2026 VLC will be held at the Sheraton Grand Chicago Riverwalk. Attendance costs \$365. Registration is open!

Have questions about the conference? Please contact vlc@avma.org.

CE Webinar Porkology 101

04:30 PM - 05:30 PM EST

Dr. Heather Fowler, Dr. Christopher Hostetler, and Dr. Marisa Rotolo will present "Porkology 101: A Crash Course in the Swine Industry" This presentation will provide the audience with an overview of the terminology, structure and processes commonly employed within the swine industry with an emphasis on swine-specific and zoonotic disease prevention for a veterinary audience. We will also outline the key industry partners and processes that will be implemented during a regulatory disease outbreak that will promote and protect people, pigs, and the planet.

This webinar has been granted up to one hour of CE credit by RACE. Participants must be active members of the ACVPM or its partner organizations and must participate for at least 50 minutes of the webinar to receive a one hour CE certificate.

When: 14 January 2026 at 4:30 pm Eastern

Where: Zoom Webinar

Cost: Free! (a benefit of being an active or emeritus ACVPM Diplomate, an ACVPM candidate, or an active member of AAFSPHV, NAFV, NASPHV, or USAHA)

To Register for the Webinar: Click [HERE](#)

Should you have any questions, please contact me.

NAOHUN Webinar: Waterborne Pathogen Transmission in Shared Water Systems: Implications

12:00 PM - 01:00 PM EST

Details

Welcome to the North America One Health University Network's (NAOHUN) Webinar Series! NAOHUN brings together One Health researchers and academics from universities across Canada, the United States, and Mexico.

Dr. Murphy will present a variety of projects from Canada, the US, and Madagascar where she seeks to quantify the burden of waterborne disease and identify key risk factors for reducing disease in humans, livestock and wildlife using a One Health approach.

9th World One Health Conference - save the dates!

08:00 AM - 05:00 PM MEA

Join us at the 9th World One Health Congress in Lisbon, Portugal!

In 2026, the World One Health Congress returns for its ninth edition, bringing together a global community of experts dedicated to advancing One Health science and policy. Over the course of four days, the Congress will feature a dynamic and forward-thinking agenda, with parallel tracks covering One Health science, antimicrobial agents and resistance, and the science-policy interface, among other critical topics.

This leading international forum will foster discussions on major One Health challenges, facilitate the exchange of cutting-edge research, and highlight policy developments shaping the future of health for humans, animals, and the environment. Through an open call for abstracts, groundbreaking work from distinguished scientists and thought leaders will take center stage.

Let's keep the momentum going and make the next 9th World One Health Congress in 2026 an even greater success. Together, WE ARE One Health!
