### 2026 Genetics and Genomics Salary Survey

Complete anytime before February 28, 2026.

agtinfonow@agt-info.org

*the AGT new salary and workforce survey for genetics laboratory professionals, including cytogenetics, molecular, biochemical genetics, and related specialties, is now open.*

*If you work as a technician, technologist, educator, supervisor, manager, or director in a genetics lab or educational program, we'd value your input. The survey is brief, confidential, and will be used to inform benchmarking, advocacy, and a planned publication on workforce trends.*

*Add your voice and help define the current landscape of compensation and career pathways in our field.*
