Cyanotype workshop

Art Place Studio Classroom

2015 Asheville Hwy

Hendersonville, NC 28791

09:30 AM - 01:30 PM EST

Guest Instructor from England: Daisy Bow DuToit

Date: September 23 - 2 sessions

9:30-11 and 12-1:30 Each priced separately

Location: The Art Place Studio Classroom

Fee: \$45.00 Members, \$60.00 Non Members per session

Maximum Class Size: 20

About the Class: Inspired from the teachings of Robin Wall Kimmerer, I introduce cyanotype and get students to consider plants that are significant to them. After a brief discussion about our relationship to nature (and how every breath we take is a gift from the plants) I do a demonstration print for the room with flowers from my pressed flower collection. After that the students get to print five postcard size pieces cyanotype paper, with my guidance. As it's a really accessible process, everyone leaves with 5 beautiful prints, feeling closer to nature and like an expert in cyanotype. I prepare 5 x A6 size paper (postcard) with the cyanotype chemical. I provide the tools and materials for participants to use. The pressed flowers add the most value.

Supplies: All supplies will be provided.

Bio: Daisy Bow is a creative storyteller that shares video content about the cyanotype process and have my work currently exhibited in London. I've collaborated with Levis, The National Trust and Polaroid. I've hosted cyanotype workshops at Royal Botanical Kew Gardens, the British Museum, John Lewis and Waitrose. I've also run smaller more intimate workshops both with sunlight and plug in UV lights. I have 18k followers on Facebook, 73k followers on Instagram and 141k followers on TikTok and I often have people on my social media asking me to run a workshop in America and as I am visiting family, I figured it would be a great opportunity to share my skills. She is currently working on her PhD at the Kingston School of Art in Craft and Social Media.

Create Your Own Family Story Necklace

The Art Place Gallery Classroom

2021 Asheville Hwy

Hendersonville, NC 28791

01:00 PM - 04:00 PM EST

Instructor: Kate Stockman

Date: October 13, 2024, 1-4pm

Location: The Art Place Gallery Classroom

Fee: Member \$50.00, Non-Member 65.00 Additional fee of \$100. for materials payable to the instructor.

Maximum Class Size: 9

About the Class: Create Your Own Family Story Necklac. e Do you have beloved ancestral jewelry languishing in your jewelry box waiting to be celebrated and adored again? Your mothers, grandmothers, aunts, sisters have shared special adornments and heirlooms with you. Sort through those pendants, charms, talismans, single earrings, rings, bracelets, chains, etc., dust them off, and bring them to this simple jewelry making class. Your Family Story necklace (and earrings & bracelets) will hold your favorite pieces that remind you that your mothers are still with you and that love never dies. This is a simple jewelry-making class, so don't be intimidated! I will provide instruction, demonstrations, sterling chain and findings, and vintage Swarovski beads. There's lots to play with as you arrange and assemble your rich, story-filled necklace. This will give you an introduction to "how to" create jewelry so that you can use other treasures to create Story Necklaces for others in your family. As you consider your necklace, think about your loved ones' favorite colors; perhaps that can give you a direction to start imagining which of your treasures you will choose (for this necklace). I will have a plethora of vintage Swarovski crystal beads to match almost any color you might have in mind! What fun you'll have as you sort through your treasures! And again, when you create your necklace, you may share a story or two with others. Bring whatever jewelry calls to "take me!" We won't use them all, but they'll at least be there for the party. Play with your intuition. That's all assemblage jewelry is: playing with one's imagination (and one's fodder) and using a few simple techniques. Just to be sure you know: I am an assemblage artist, not a metalsmith nor a lapidarist. I will offer cold connection assemblage jewelry instruction. But we won't be able to repair, solder, etc. what you bring. I can show you how to turn some pins into pendants, but that's about it. If you want to include a special pendant, etc, in need of repair, please have that repair done before the class. I have some jewelry tools to share. We'll need needle-nose pliers, flat nose pliers, round needle nose pliers, and a wire cutting tool. If you have any, please bring them along also. Otherwise, we may share tools as well as stories! Our mothers still celebrate us. Let's circle to celebrate them! This will be an intro to simple jewelry assemblage. No previous skills necessary. Sense of adventure and exploration are necessary!

Supplies: I provide basic sterling silver components (chain, findings, clasps) as well as vintage Swarovski crystals. Students will bring their treasured jewelry pieces to add their stories to their necklace. Students also need to bring needle-nose pliers, flat nose pliers, round needle nose pliers, and wire cutting tool. \$100. materials fee to be paid directly to Kate.

2021 Asheville Hwy
Hendersonville, NC 28791

01:30 PM - 04:00 PM EST

Did you know that 40 minutes of creating art lowers the level of cortisol (the stress hormone) in the body? Art really does heal, and it's fun, too. Join us on the third Sunday of every month to play with collage art and take a short creative break at our Sunday Collage & Play. No experience necessary.

Creating art is just playing with materials. Most of us might already have our supplies ready and organized, but just don't have or take the time to play and create! This free Sunday session offers the time, space, and supplies to encourage playing and creating to anyone who is interested in exploring the paper collage medium.

The instructor will provide an embarrassment of collage supplies (including magazines, catalogs, glue sticks, etc.) to get folks started. Attendees can bring something they're already working on, their own images, magazines, etc. (please also bring your own scissors!) Prompts will be offered, but it's completely up to you what you want to collage! This is a casual gathering to bring community together to create art and everyone is welcome to join! Bring a friend!

This event is free but requires registration. There is a \$5.00 usage fee that will be collected.

Somatic Art and Relationships with Judi Moolten

Art Place Gallery Classroom

2021 Asheville Hwy

Hendersonville, NC 28791

01:00 PM - 04:00 PM EST

Instructor: Judi Moolten

Date: December 14, 1:00-4:00

Location: The Art Place Gallery Classroom

Fee: Members: \$125., Non-members: \$ 140.

Maximum Class Size: 25

About the Class: Relationships are one of the most rewarding — as well as the most frustrating aspects of our lives. Whether in intimate or work settings, the quality of our relationships has an enormous impact on the quality of how we live, our self-esteem, and our careers. Yet, we often find the behavior of others baffling — even if we have known them intimately for many years. Often, the things we do not understand in others are the greatest sources of problems and conflicts in our relationships. Clearly, the better we know ourselves and the people in our lives, the more harmonious and satisfying our relationships will be. This is a workshop for Couples. Couples will work together to connect through Somatic Art. We will access areas where the individual may be blocked from their artistic expression and how the couple may find a deeper connection through artistic communication. Using tools from EMDR/Bilateral Stimulation, Enneagram Typing/Character types, and IBSR Somatic mapping each participant will create a deeper connection with themselves and others.

We will remove unhealthy stress and open up the artist's palette to physical expressions of color, mental descriptors, and balancing of the art/science part of our brain, or organized side while opening it up to the fully self-expressed side. We will remove barriers to creativity and discover what artwork best suits you.

We will help participants recognize personal strengths as well as to uncover the blind spots that they bring to their relationships. If you want to improve your relationship with a spouse, child, friend, business associate, or family member, this Workshop will be invaluable.

What skills, experience or pre-requisites are required for this class?

Pre-req's teacher will send some materials via email for participants to fill out at least 24 hours before class. Participants will bring, tissue, a journal, favorite pens, pencils, and markers.
