Join your fellow financial aid captains and senior officers as we set sail for the 2025-26 FASFAA Directors Summit — an exclusive two-day convening designed to help you navigate major changes in federal aid policy and steer your institution through the shifting tides of higher education.

With the One Big Beautiful Bill (OB3) reshaping our course, this earlier summit gives leaders the advantage to review data, exchange best practices, and chart a strategic course before the new aid packaging season begins.

Anchored at Bethune Cookman University in Daytona Beach, this event offers collaborative sessions, expert-led discussions, and opportunities to connect with peers who are leading the charge across Florida.

Prepare to dock with insights, resources, and renewed confidence to lead your crew through the year ahead.
